

# PREPARE TO DO GREAT THINGS.

## A Master's from UB's School of Engineering, the Science of Success.

Students and employers know that when it comes to engineering experience and expertise, UB's School of Engineering leads the way in preparing professionals for career advancement. With five outstanding graduate degree programs in Computer Engineering, Electrical Engineering, Mechanical Engineering, Technology Management, and Computer Science.

The largest program of its kind in Connecticut, UB's School of Engineering consistently receives high marks from industry associations and employers looking to find exceptional talent. And with 16 dual-degree options where students can earn a second master's degree in almost half the time; plus 54 in-demand interdisciplinary concentrations, such as Bio-Medical Engineering; Robotics and Automation; and a Ph.D. program in Computer Science and Engineering; UB's School of Engineering has something for everyone.

Best of all, with weekend programs that can be completed in less than 18 months, distance-learning classes, certificate programs, and evening classes, it's easy to find a program – and schedule – that's right for you.
